

Lost & Found Campus System - Entity Relationship Diagram

SQL Server (T-SQL) | DBMS Group Project

Legend

PK

Primary Key

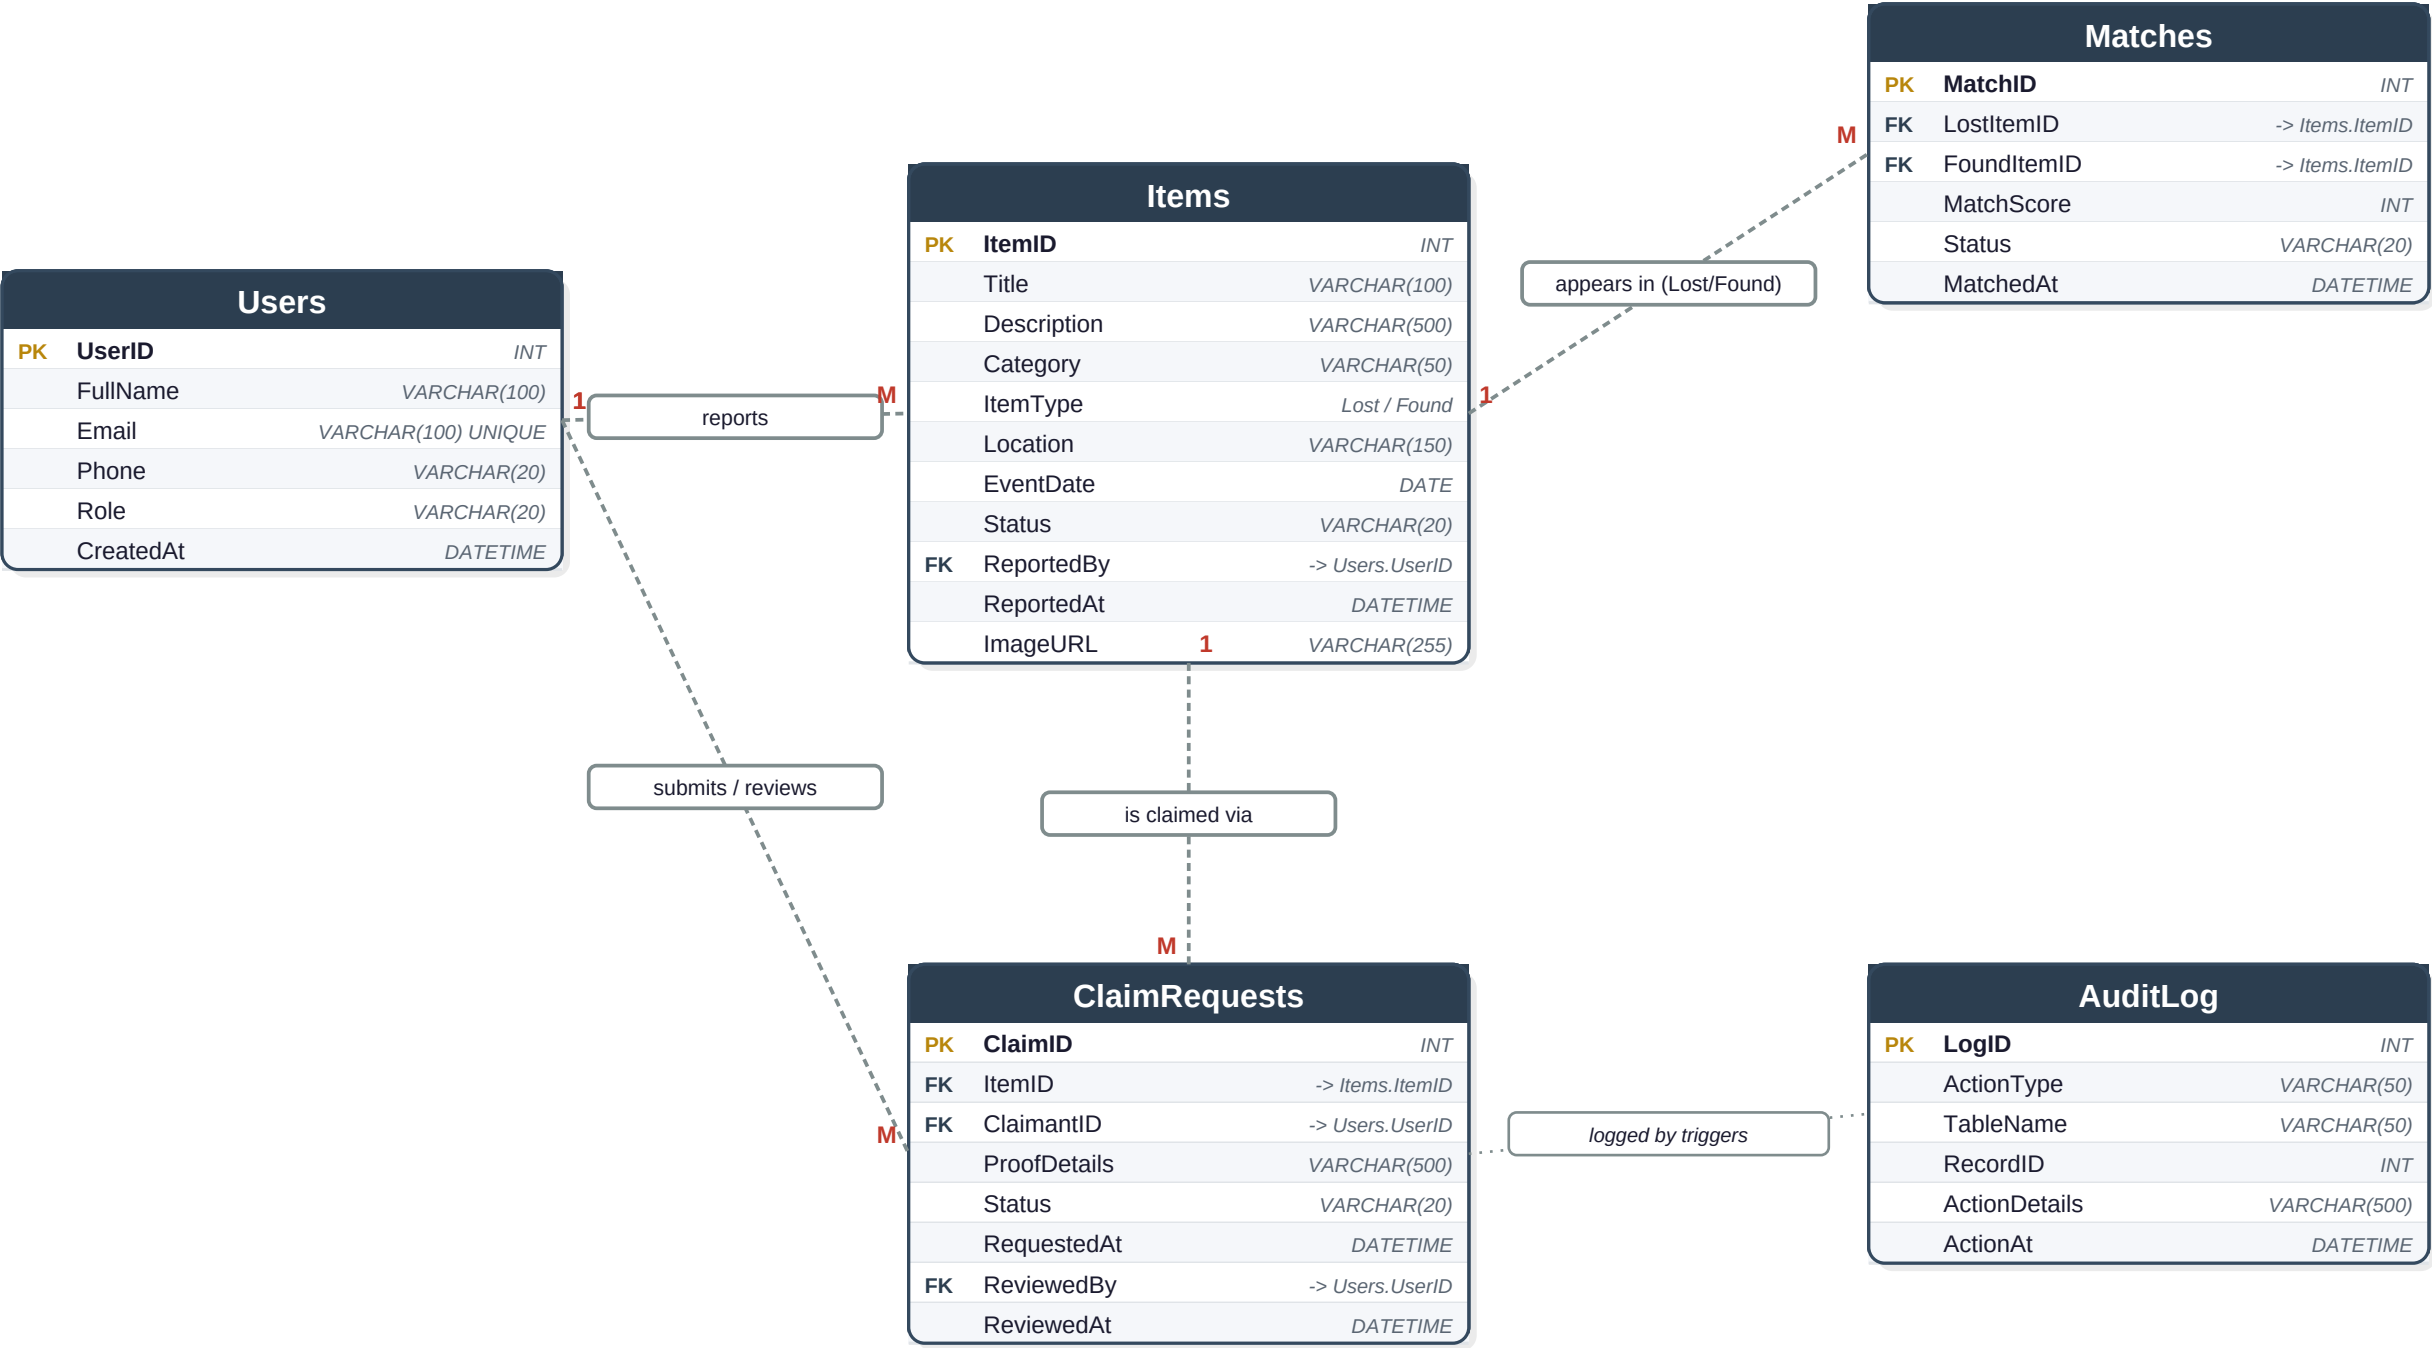

FK

Foreign Key

Relationship

1 : M

One-to-Many cardinality

Note: Items table unifies Lost and Found reports (ItemType column). Matches links a Lost item to a candidate Found item. Triggers on ClaimRequests auto-update Items.Status and write to AuditLog. Stored procedures encapsulate reporting, matching, and claim review workflows.
